Rekenen – Splitsen knijpkaarten

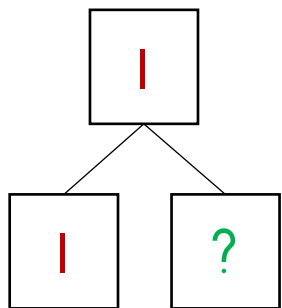

Print de kaarten uit, lamineer ze en knip de kaarten uit.

Zet op de achterkant ter hoogte van het juiste antwoord een groene stip of stempel, zodat de leerling zelf kan controleren of het gegeven antwoord goed is.

Uitleg:

De leerling kijkt naar de splits-som en plaatst een wasknijper op het juiste antwoord. Vervolgens controleert de leerling op de achterkant of bij de knijper een groene stip of stempel staat. Is dit het geval, dan heeft de leerling de splits-som goed uitgerekend.
